## **African Gold Dollar**

A Cryptocurrency backed by the Government and guaranteed by bullion gold, housed at the Central Bank and additional Natural Resources, which include operating gold mines and other gold related assets which give the crypto currency – The African Gold Dollar a Tangible Value, based on internationally accepted FOREX rates and values, that pertain to the underlying bullion gold assets which together, with government sovereign guarantee, backs the African Gold Dollar at a ratio higher than the United States Dollar, which is not backed only by debt obligations.

The African Gold Dollar, is a non-mined cryptocurrency and it is directly backed by the government and connected to Central Bank Gold Bullion Holdings and/or gold bullion related assets, audited and rated.

The African Gold Dollar is created under the legislations or exemptions thereto, in the Republic of Mozambique, and specifically tied to its administrative entity under the name of BDF Bank, established under the rules and regulations of the Republic of Mozambique and monitored by the respective authorities associated therewith.

The African Gold Dollar, is a fully electronic cryptocurrency, trading across the Block Chain Network, which is ultimately safe, fast, efficient, transparent, and effective as a cryptocurrency and cash currency alternative.

The African Gold Dollar, it's unique and it's centralized rather than decentralized, and has Tangible actual and verifiable value, as it is backed by bullion gold, the World's Reserve Asset, seconded only to the US dollar, in addition to the issuing government(s) Sovereign Guarantee.

Additionally, the non-decentralized cryptocurrency, is fully functional across all cryptocurrency exchange platforms and services exchanges, facilities for settlement and distribution, payment, credit or other administration required of its use in commerce and cannot be manipulated or hacked on its blockchain network – system and platform / Exchange.

The African gold dollar will be initially issued in the amount of USD 3 billion dollars, With a target of USD 10 billion dollars, before the end of 2023 in its pilot testing phase – which is meant to gauge the public acceptance and utility of the African Gold Dollar, as compared to the national currency(s) and/or other medium of exchange.

The African Gold Dollar Cryptocurrency is further unique, in the fact that it can be used for purchase and settlement of any goods and services, and in any increment and sub increment necessary.

In addition, The African Gold Dollar settlement token, has also been constructed to be pegged against the US dollar while still backed by gold bullion (For which the US Dollar is not).

These creative concepts in payment and settlement systems, backed by gold bullion, trading across the Block Chain platform, is a revolutionary concept, in Electronic Commerce and Cash Settlements, in the form of a centralized asset backed cryptocurrency, which is the African Gold backed Dollar.

Parties interested in reviewing a technical white paper, may request one at any time, in addition to further legalization documents, certificates or other diligence items, are available upon request.

We look forward to your participation in supporting this revolutionary New Concept in trading and commerce, which we hope will become a standard worldwide, not only on the African continent, but with other countries across the globe, who may adopt the African Gold Dollar as a Bullion backed, settlement currency, for their trade, commerce and settlement of commercial transactions, as a new, fast, safe and reliable – (Asset/Government – Backed) Cryptocurrency.
