Ref: Letter of interest to Purchase the SARS2 COVID, 15 seconds Insta Test
Graphene biosensor technology device - Purchase order follows

Dear Sir(s)

We have noticed this new technology and device being tested for production and delivery by your organization and we are very interested in purchasing a large number of units for our NGO and institutional use in the Dominican Republic.

We also offer clinical trial service outsource as well, conducted under strict CGMP FDA standards at our partner organization, the Dr Cruz Jimenez Foundation and the Hospitals and clinics associated there with.

Please contact us with the procedures and forms we will need to fill out to purchase high volume and long-term commercial relation.

(500,000 -1M +Units Pre delivery Monthly) (5-15M per year)

We are able to pay cash pre order deposits up to 50% via Bank responsible LC and settlement at SGS inspection in the point of disembarkation as normally done.

All government approvals will be cleared by our organization in addition to clinical trials if you need these as well for the FDA.

Sincerely,

Dr.  Camano, MD

Director
