March 12th 2020

Vice Prime Minister of Ukraine
Industrial Development and
Defense Modernization
Kiev, Ukraine

Subject: Letter of Reference for Enerkon Solar International (ENKS)
Mr. Benjamin Ballout CEO – and Diplomatic Trade Ltd. (USA)

Your Excellency,

We are pleased to confirm our Delegation was dispatched to Cairo, Egypt during mid 2017 in order to Meet Mr. Ballout and his companies' group for talks on the establishment of 3 large Solar PV Electricity Plants (in Gaza, Cabo Delgado and Nampula Provinces)

During that meeting an official cooperation agreement was signed between our joint PPP with the Government of Mozambique Project Novo Mozambique for which I am also President, and afterwards the President of the Republic of Mozambique issued a Presidential decree on the matter of building the solar Plant(s) and referred the matter to all of the other authorities to Implement the projects with Enerkon Solar International Inc.

Thereafter until today the Project was implemented and continues as of today with remaining another 1-2 years of completion due to the covid Crisis delays in construction.

Once the Plant is ready to turn over to the National Grid and the Government for PPA (Power Purchase) then they are to start on their second major Project in the country at Cabo Delgado.

We are very pleased with the performance and professional of MR. Ballout and Enerkon Solar International as well as their sub contract division Global Star Holdings / SCC (Hong Kong – UK).

PIMO as a major political block in the Government of Mozambique maintain an association with the regional humanitarian organization - The Arab African Council on Socioeconomic Development - who suggested our cooperation Enerkon Solar International Many Years Ago and until now we are very satisfied.

We avail ourselves the opportunity to express our warm regards and deep appreciation for your esteemed office.

Sincerely,

O Presidente do PIMO
Ya-qub Sibindy
